APRESENTAÇÃO

SOBRE NÓS

Fundada em 2001 em Americana (SP), a Têxtil Alamo oferece uma ampla variedade de tecidos nacionais nos segmentos Surfwear, Streetwear e moda feminina, masculina e infantil, atualizando-se continuamente com lançamentos.

MISSÃO

Produzir e comercializar tecidos de alta qualidade, priorizando sua relação custo/benefício para os mais diversos mercados.

Satisfazer e procurar superar as expectativas dos nossos clientes, e contribuir para seu sucesso com produtos básicos e diferenciados de qualidade garantida.

Estruturar a empresa para oferecer uma linha completa de serviços e produtos para o atacado e varejo.

VISÃO

Ser uma empresa têxtil líder em seu segmento, inserida em estreitas parcerias com grandes companhias de varejo, revendedores, confeccionistas e distribuidores.

VALORES

É primordial para nós valorizarmos as pessoas, sejam elas clientes, consumidores, fornecedores ou colaboradores. Acreditamos que só ouvindo e compreendendo as pessoas conseguimos cumprir nossa missão: satisfazer e fidelizar os clientes através da excelência dos nossos serviços e produtos.

COMPOSTO ANTI-COVID19

Sobre a aplicação do composto

Os tecidos são revestidos por um composto contendo nanopartículas de prata e sílica. Esta aplicação já está sendo feita em duas ordens: CA-3176 e ST-2471.

O que o composto faz na prática?

O composto foi criado em uma Universidade Federal de São Carlos com a finalidade de combater não só o COVID-19 mas também de matar fungos e bactérias. O composto de nanopartículas provoca uma reação química que produz um tipo de água oxigenada capaz de acabar com o vírus.

APLICAÇÃO HIDROREPELENTE

Sobre a Hidrorepelência

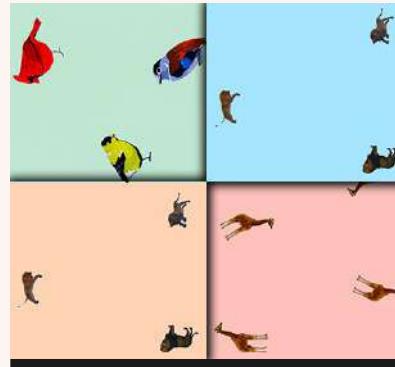

A hidrorepelência refere-se à proteção contra respingos e névoa e não ao molhamento intensivo.

Outra característica fundamental da hidrorepelência é a transpiração, ou seja, o tecido permite a troca de calor do corpo com o meio ambiente.
